Music Composition Rules

**MUSIC COMPOSITION** is the process of creating a new piece of music. The *composer* (student submitting entry) is a person who expresses their own thoughts and ideas through the use of sound. The student composer may submit an entry performed by an individual or group and/or make use of a sound library generated performance of a composed score. Student composers are not required to perform their composition. Middle and high school grade divisions require music score/tablature/notation, either traditional or tablature.

## Reflect on the 2015-2016 Theme: Let Your Imagination Fly

Consider the following musical styles and instruments to portray your original composition: A cappella, blues, choral, country, electronic, hip hop, jazz, world music, musical, orchestral, pop, R&B, religious, rock, symphonic/concert band and traditional.

All instruments, sounds, styles and combinations are accepted. Software may be used to produce an audio recording that does not include commercially pre-programmed imported MIDI or other source files. Entries containing algorithmic composition techniques are not accepted. An explanation of the origin of the music and/or the significance of the music style might be a useful addition to the artist statement when submitting a music composition that involves traditional, cultural or regional instruments. Whether an entry displays formal composition technique or a simple approach, it will be judged primarily on how well the student uses his or her artistic vision to portray the theme, originality and creativity.

#### **Suggestions for Audio Quality:**

- Do not place the recording device on top of an instrument(s) or speakers.
- Turn off all noise-making devices in the room (air conditioners, fans, telephones, etc.). •
- Record a short test and listen to it. If needed, change the record volume or microphone location.
- Allow for two seconds of silence at the beginning and end of your recording. •
